

EMERGENCY ROADSIDE ASSISTANCE

# GREATER UPTIME. LOWER COSTS.

**The secret to our success is the strength of our network. We're a united network of partners, enhancing performance for the customers we serve.**

We minimize downtime with modern technology. We maximize uptime with greater compliance. We lower maintenance costs with smart workflow and cost-reduction data. Our customers benefit from greater flexibility, transparency, and on-time performance.

And because our providers are partners, we make stronger commitments to our customers than anyone else in the fleet maintenance industry.

You'll benefit from our industry-leading turnaround time when repairs are needed. Our services include:

- Jump starts
- Tire repair
- Lockouts
- Tire replacement
- Battery replacement
- Reefer repair

We lower the cost of operations for dispatch centers by eliminating phone calls and immediately locating service providers with whom we've already negotiated the industry's lowest rates.

We manage breakdown events to ensure the right providers are assigned, services are being performed as requested, and no more time, labor or materials are used than necessary. We also ensure accuracy by auditing every invoice we manage. We free clients to focus on what they do best.

**Any time of day...in any weather or location...our team can help. We operate 24/7/365. Call us for any type of Emergency Roadside Assistance. To learn more or to establish an account, call 1.800.825.4138.**
